

ERIC GORDON

Trained as both an Urban Designer and a Landscape Architect, Eric is a LEED® Accredited Professional with a passion for design in the built and natural environment. In his work, he displays a commitment to innovative and sustainable practices, an understanding of both landscape and urban ecology, and a strong sense of social justice.

Eric received his Masters of Landscape Architecture in Urban Design from the Graduate School of Design at Harvard University. There, his studies included an integrated effort to provide an inspiring and achievable vision using participatory planning and design techniques for the residents of an informal settlement in Belo Horizonte, Brazil.

Eric has worked on a variety of local and international projects, ranging from a regional TOD design guideline in Durham, Ontario; to a large waterfront masterplan in Aqaba, Jordan; to a small neighbourhood park design in Toronto. Currently he is working with a team to develop an official plan for the city of Vaughan, Ontario; and is the lead designer on a gateway park plan for Dundas, Ontario.
